

AggTRAIN™

BESPOKE TRAINING SOLUTIONS

EXTRAXI provide bespoke training services to the construction materials and broader industry, including development of learning materials and manuals, group facilitation, coaching, exercise scenario development, implementation, and review.

AggTRAIN provides a cost effective training alternative for the aggregate industry. As qualified trainers and assessors, EXTRAXI develop programs that meet client specific needs, using the principles of adult education.

Depending on the topic and content, our AggTRAIN facilitation or workshop programs are generally conducted over one or two days, ensuring your team gets back on the job quickly. We can enhance AggTRAIN programs through practical application of the taught skills and concepts via on-site consulting.

EXTRAXI has provided bespoke AggTRAIN programs to major clients in the civil construction, construction materials, and LNG industries, as well major government departments and industry associations, both within Australia and internationally.

Our range of training has included:

- Basic Geology and Geological Concepts
- Quarry Products – Technical
- Operational Performance Improvement
- Cost Management for Aggregate Operations
- Emergency Management
- Leadership for Aggregate Managers & Supervisors

Contact us for further information on how AggTRAIN can assist you to improve your business with bespoke training.
